

The summer school is intended for women students studying in first year B.Sc/B.E./B.Tech or equivalent degree and having Mathematics as one of the major subjects/courses, during the academic year 2017-2018. Over a period of two weeks, the school shall aim at helping young students gain broader exposure to problem solving skills in mathematics and statistics at the undergraduate level.

The school is being funded by ICTS and will be held in the Ramanujan Lecture Hall, ICTS Bengaluru. The below website has details on how a student can apply to participate and getting travel + local boarding and lodging support:-

<https://www.icts.res.in/program/swms2018>

If you could forward this to students at Universities/Colleges in Kerala in the undergraduate program and encourage women students to apply then it would be great.
